through the Surgeon-General with the Government of Madras.

Sir, Madras.

I have the honour to submit for the approval of Government an estimate amounting to Rs.540/- for carrying out certain improvements to the Police Sub-Assistant Surgeon's quarters at Mangalore.

2. The District Medical and Sanitary Officer does not consider the expenditure a heavy item considering the advantages to the residents especially in view of the fact that the place is situated in a chronically plague-infected area.

3. The nature of the work is explained in the report accompanying the estimate.

4. The proposed outlay will increase the capital cost of the building by Rs.390/-.

5. A data statement for calculating the rent of the building is enclosed.

I have the honour to be,

Sir,

Your most obedient servant,

G. B. Deane
for Insp. - Genl. of Police.

Report to accompany the estimate for removing the existing bamboo mat ceiling and providing Mangalore machine ceiling tiles with new bhoghi reapers to the roof of the Police Sub Assistant Surgeon's quarters at Mangalore.

Amount of estimate Rs.540/-

The estimate provides for removing the existing bamboo mat ceiling and providing ceiling tiles to the building. The rafters of the building are of bhoghi wood 2" x 6" placed at 2 ft. centre. Since the rafters are not ^{of} sufficient section to bear the extra weight of the ceiling tiles purlins with sections as per calculation attached are proposed. The reapers are of country wood and will be useless after removing the same for taking away the bamboo mat ceiling which is in between the rafter and the reapers. Provision is therefore made to replace the reapers with bhoghi reapers 2" x 1". A lump sum of Rs.10/- is allowed in the estimate for new roof tiles which may be necessary to replace the broken ones.

The present capital cost of the quarters is Rs. 1,800 and will be raised to Rs. 2,190 by the proposed improvement, while the permissible outlay calculated on the revised scale of pay works out to Rs. 2,727. But from the report it will be seen that the work is not of an urgent nature. The improvements do not seem to be immediately called for. In view of the present financial conditions it is for consideration whether the improvements may not be deferred till better times.

La.
14.3.21.

The improvements are only connected with the roof & I think it would be interesting to know how a change of roof will in any ^{degree} render the place more immune from plague. This is the reason advanced for the improvement page 1 cf. till we are satisfied on this point I do not think I should agree. The building has managed with its present roof apparently from 1899.

May be accepted.
